The Chester County Board of Commissioners through the Chester County Planning Commission, Westtown Township, and our sponsors announce the 25th summer of sharing Chester County's heritage during the annual TOWN TOURS & VILLAGE WALKS.

To celebrate our 25th anniversary we will return to our county's roots and visit a number of our historic villages to learn how they started and explore who they are today! A special celebration is planned for the last tour at the Radley Run Country Club.

Town Tours & Village Walks is a series of free summer strolls through historic neighborhoods, hamlets, villages and sites. This summer you can explore Chester County's heritage on Thursday evenings, June 13th-August 29th. Each tour is designed to inform, entertain and increase awareness of Chester County's rich heritage and historic landscape. A number of our sites offer a good selection of restaurants and shops to enjoy after your tour.

Please note: Tours generally last 50 minutes and begin at 5:30 pm with the last tour leaving at 7:00 pm unless otherwise indicated in the brochure. There will be a Kick-Off program on June 13th with pre-registration at 5:30 pm and a Closing Celebration program on August 29th with tours beginning at 4:30 pm and an optional dinner. The August 1st bus tour and supper lectures require advance registration with specific instructions.

See brochure for specific instructions.

Founded in 1682 by William Penn, Chester County enjoyed fertile soil, moderate climate, abundant natural resources, and access to nearby markets. Here the early settlers quickly realized the abundant creeks could power numerous mills which became the early centers of trade. Slowly trails were formalized into dirt roads leading to Philadelphia and local market and cultural centers. These roads also connected trade centers located at mills and sacred places. Crucial to economic vitality, villages developed starting in the late 18th century, at the crossroads of early roads and destinations. As technology spurred innovation in the 19th century, canal, railroad and industrial villages grew into towns. By the early 19th century, our boroughs and Coatesville City were well on their way to becoming the cultural and economic centers we know today.

A AUG. 15: ARMCHAIR TOUR OF THE VILLAGE OF SADBURYVILLE

Located on U.S. Business Route 30 about five miles west of Coatesville, the settlement began as early as 1729, but it did not grow until 1794 when the first macadamized road in the country was laid through the settlement. Soon afterwards, Sadsbury Hotel was a welcome stop for turnpike travelers. Sadsbury may have been named for Sudbury in the county of Suffolk, England. The early settlers were a mixture of Friends from England and Scotch-Irish Presbyterians. Images and stories will transport you back in time. Weather permitting, a guided stroll of Historic Yellow Springs will be offered afterward.

The village, now protected under a historic district, remains largely untouched by modern development. C DEC. 12: BEWARE THE BELSNICKEL

Rich Pawling will bring his talents as an educator, living history reenactor and presenter to the final Town Tour Supper Lecture. In the mindset of late 19th century Pennsylvanians of Palatinate German ancestry - without experiencing the Belsnickel, you could not fully appreciate the "grace" of Christmas. Children of the time often dreaded his arrival. You knew the Belsnickel had arrived when you heard the rattling of switches on the window, a loud thumping of his booted feet and the sound of bells ringing in the night. Discover how he evolved from the Germanic customs of the homeland into today's Santa Claus.

SUMMER 2019

1 JUNE 13**WEST CHESTER C. 1788: FROM TURKS HEAD TAVERN TO COUNTY SEAT**

SPONSORS: West Chester HARB & Historical Commission
Annual Kick-off Celebration:
Church of the Holy Trinity

During the late 1720s, in the Land of Goshen, a Quaker farming hamlet began with the development of the Goshen and Great Valley or Wilmington Roads. In 1762, Phineas Eachus received a license to open a "Public-House." By 1768, the crossroads tavern would be known as the Turk's Head. Just west of the Turk's Head, in 1784, a lot was purchased that would become the new county seat for Chester County. At this site, on March 3, 1788, the State Assembly created a "County Town" to be known as West Chester.

PARKING & REGISTRATION: Church of the Holy Trinity, 212 S. High Street. Arrive at 5:30pm for pre-registration, all tours leave at 6:30pm after the celebration. High Street has both metered and free parking. A metered lot is available next to the United Methodist Church, 129 South High Street and the Bicentennial Parking garage, 20 South High Street.

2 JUNE 20**LUDWIG'S CORNER C. EARLY 1770'S: A STOP ON THE CONESTOGA ROAD**

SPONSOR: West Vincent Township Historical Resources Committee

Around 1811 when Jacob Ludwick, Sr. (1755-1833) bought shares in the 17.5 mile "Little Conestoga Turnpike" road venture, he also purchased 14 acres along the road from his son-in-law, Henry Miller. There he built a tavern and coach stand which he named the Captain Lawrence. Locals called it "The Bucket of Blood." His daughter, Hannah Ludwick (1797-1873), and son, Jacob Ludwick, Jr. (1799-1868), continued there. At the intersection of today's Conestoga Road and St. Andrew's Lane, a small commercial hamlet grew, with church and school, witnessing and adding to the changing winds of history in West Vincent Township. **A nearly "walkless" tour will be held at St. Andrews Church with driving maps to help you further explore on your own.**

PARKING & REGISTRATION: St Andrew's Episcopal Church, 7 St. Andrews Lane, Glenmoore, on Route 401 west of Route 100. Overflow parking is available at the rear of the Ludwig's Village Shoppes, 2904 Conestoga Rd, Glenmoore.

3 JUNE 27**WARWICK VILLAGE C. 1717: AN EARLY IRON VILLAGE**

SPONSOR: Warwick Historical Commission

Warwick Village has existed since settlers arrived in 1717 to work the local iron ore mines. The ore was hauled to nearby furnaces, where the iron was extracted and made into cannons and cannon balls for the Continental Army. 18th and 19th century homes line both sides of the narrow road that ambles through the village, which has seen few changes. The houses once served as more than residences. They were general stores, a post office, a hotel, a parsonage, a tavern, and a school house. In the center of the village is Saint Mary's Church, founded by Levi Bull in 1805. Many of the presenters will be in costume and the street will be closed to cars so visitors will be able to stroll freely.

PARKING & REGISTRATION: 10 Morningside Dr., Elverson - near the intersection of Route 23 and Morningside Dr. Follow signs and parking attendants will be assisting.

4 JULY 11**LIONVILLE C. 1712: A TRICENTENARIAN STORY**

SPONSOR: Uwchlan Township Historical Commission

At the time of its settlement, the area now known as Lionville was called "Uwchlan Meeting" or Red Lion due to the Quaker Meeting formed in 1712 and the Red Lion Inn. Most of the early farm buildings were clustered along village roads which were unpaved until the 1920s. Placed on the National Register in 1980, the 39-building Lionville Historic District features buildings from the early development of the village as well as 20th century buildings that continue the story. Come explore this gem in the midst of the bustle of the intersection of Routes 100 and 113!

PARKING & REGISTRATION: St. Paul's Lutheran Church, 104 South Village Ave., Exton. Please do not park along South Village Avenue.

5 JULY 18**REGENERATE, REINVENT, RECYCLE: THE VILLAGE OF YELLOW SPRINGS, C. 1722**

SPONSOR: Historic Yellow Springs

In 1810, Yellow Springs was described as a "perfection of landscape". As this unique place unfolded, one could see how the perfection of landscape became the common thread woven over the centuries that entwined the people and provided the background for this village to move forward in distinct historic eras. With nearly 300 years of documented history, this village was a Lenape Indian site, a health spa with healthful mineral springs, a Revolutionary War Hospital, the Pennsylvania Academy of the Fine Arts Country School, and Good News Productions' movie studios. Much has changed; much has stayed the same. Today the village invites visitors to see and learn about this regeneration, reinvention and recycling. Join us as we look at our village and its endurance, perseverance, and tenacity then, now, and into the future.

PARKING & REGISTRATION: Historic Yellow Springs, 1685 Art School Rd, Chester Springs. Follow directional signs for parking after entering the village.

6 JULY 25**MARSHALLTON VILLAGE C. 1731: DROVERS & PATRIOTS, ARTISANS & FARMS**

SPONSOR: West Bradford Historical Commission

Visit our new Heritage Center and join our tour of this nearly untouched village, named for botanist Humphry Marshall (1722-1801). Marshallton Village was an important stop on the Strasburg Road, a freight road from Lancaster to Philadelphia. Being a free road, it was heavily traveled. There were two hotels in the village and one nearby dating to 1765. Among the outstanding features of the village is a Quaker Meeting dating to 1722 (present building is 1765), a cradle factory, that made grain cradles and scythes, a blacksmith shop, pump maker, cigar factory, tinsmith shop, clothing store, bakery, and the Methodist Church dating from 1829.

Created as a speculative development in the late 1800s, Johnstown initially did not thrive. The first residents were Irish, many of whom worked on the railroad. Geographically, the area was hemmed in with only one major road going in and out. After World War I, Italian immigrants dominated the area, creating an entire community unto itself, complete with churches, stores, butchers, and entertainment through the creation of St. Anthony's Lodge, which is celebrating its 100th anniversary in 2019.
